UNIVERSITAS INTERNASIONAL SEMEN INDONESIA

A NEW ERA UNLOCK

The journey of UIST, which has surpassed 1 decade, demonstrates that the institution has proven its existence as a corporate-based higher education institution.

In the context of the implementation of education which is one of the elements of the Tridharma, the development must be able to accommodate all levels of higher education including bachelor degree also, master degree, and doctoral degree.

The Master of Management Corporate Business was established with the purpose of providing great benefits for institutions, communities and the nation, especially the benefits towards improving the competence and competitiveness of Indonesian human resources.

The Master of Management Corporate Business uses project-based learning methods based on experience, case studies and research in various fields, especially corporations and entrepreneurship, which is further expected to be more professional Indonesian human resources.

WHY MM-CORPORATE BUSINESS UISI?

RECOGNITION OF PROFESSIONAL EXPERIENCE

We recognize work experience as a valuable asset and can be academically recognized through evaluation or sharing sessions. Accelerated learning without compromising academic quality

PROJECT-BASED LEARNING METHODS

UISI-MM Corporate Business Project is committed to implement the Project-based Learning (PBL) with practitioners. In the learning process, each subject will collaborate with professionals or experts in a particular field to enhance the learning experience.

This approach can provide students with real-world insights, feedback, and mentorship, making their projects more relevant and impactful.

FLEXIBLE CLASS SCHEDULE & BLENDED LEARNING OPTIONS

You can choose class times that best suit your busy schedule, whether in the morning, afternoon, or evening, and select between weekday or weekend classes. For added convenience, we offer a combination of online and face-to-face learning based on your needs.
